EDUCATION

National and Kapodistrian University of Athens (DIT UOA)

Athens, Greece

B.Sc. in Informatics and Telecommunications; GPA: 8.5+/10

Sep. 2025 – Jun. 2029 (Expected)

- Entered with the 2nd-highest grade among all incoming DIT UOA students in 2025 (Panhellenic Exams score: 18.888/20, Mathematics: 100/100, Computer Science: 100/100)
- Relevant Coursework: Introduction to Programming with C (9/10), Data Structures & Algorithms (10/10)

TECHNICAL SKILLS

Languages: C/C++, Python, TypeScript, JavaScript, SQL, HTML/CSS

Frameworks & Backend: FastAPI, Next.js, REST APIs, PostgreSQL

DevOps & Cloud: Docker, Kubernetes, CI/CD, GitHub Actions, Microsoft Azure, Vercel

Systems: Linux, Bash, Command Line / Terminal, Scripting

Tools & AI: Git, GitHub, Claude Code, MCP (Model Context Protocol), LaTeX

PROJECTS

p1ng2r.gg | *Riot API, Docker, Vercel, Neon*

- Built a website for looking up League of Legends player stats using Riot Games' API
- Deployed on Vercel with a Neon (serverless Postgres) database, containerized with Docker
- p1ng2r-gg.vercel.app

Mylonas Discord Bot | *Python, discord.py, Gemini API*

- Built a Discord bot that provides quick, AI-Overview-style answers in text channels using Google's Gemini, activated by tagging the bot
- Deployed to run continuously (24/7)

Elevator Optimization + MCP Server | *C, Dynamic Programming, MCP*

- Wrote a C program that solves optimal elevator placement to minimize walking cost, implementing memoization, brute-force, and dynamic-programming approaches
- Exposed the solver as an MCP server so AI coding tools (e.g. Claude Code) can call it directly

CERTIFICATIONS & AWARDS

Michigan ECPE – C2-level certification in English proficiency, University of Michigan 2022

Eurobank "Mprosta gia tin Paideia" Award – For excellence in the 2025 Panhellenic exams 2025

Microsoft Azure Fundamentals (AZ-900) – Certified in core Microsoft Azure cloud concepts and services 2026
